**SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:**

*Examiner Pellegrino explained the ambiguity of the post being "disposed within the entire distal end of the tool" since it was recited to also include "a bent distal end". Proposed language was discussed to clarify that the straight portion of the moveable post to be entirely within the central channel of the shaft of the tool and that a housing that included the extension to engage the baseplates "housed the bent distal end of the post" such that it is within it. Mr. DiBianca authorized the Examiner's amendment to clarify the intended claim language.*

**Part III.**

It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.  
 It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
